The dynamic future of the global convergence is expected to bring opportunities for global corporations, but can create massive threats for corporations who are not well prepared. One of the mandatory tickets to facing globalization, is an effective Good Corporate Governance and Enterprise Risk Management practices at the board level, known as Risk Governance.

To achieve effective risk governance, companies must identify the present and future risks that may be arises, determining the right measures to mitigate these risks.

Therefore, this Risk Governance Master Class is designed specifically for senior managers and board members who are in charge of the implementation of effective Control Environment and Risk Oversight.

The program is focused on providing practical case studies as well as conceptual learning points that can be applied to a real-world scenario. The curriculum is based on learning by the case method, group work and personal reflection sessions.

**Enterprise Risk Governance**
This session will address the underlying principles of Good Corporate Governance, its leading practices across the globe and its integration with risk management accountability discharge at the corporate board and senior management. It also put a spotlight on the risk governance challenges that all concerned stakeholders, such as investors, regulators, company boards, and minority shareholders group face in the market.

**Strategic Risk Management**
Defining the guiding principles for Strategic Risk Management that senior management teams and directors can use to help link Enterprise Risk Management with strategy formulation and execution, and therefore enable them to assure their strategic risk management is conducted effectively towards creating and protecting value.

**Legal Risk Management**
Entering the AEC, companies in this region especially their board of directors and senior management need a greater assurance that legal risks are being appropriately dealt with and the organization remains on target with its performance objectives. For that purpose, the corporate leaders must have reasonable understanding about effective legal risk management framework and practices.

**Risk Leadership and Culture**
Developing and leading an effective risk culture is the foundation of ERM. A healthy risk culture gives employees a stake in risk management. It starts at the top—with the risk leadership from the board of directors and senior management—and requires commitment and involvement across the entire organization. This session will use case studies which exhibits effective risk culture and leadership in various situations.

**Fundamentals of ERM**
This session will start with a review of major ERM frameworks widely used, COSO ERM and ISO 31000:2009. Further, the discussion would be focused on the principles, framework, and process of managing the enterprise-wide risks based on ISO 31000 as the international risk management standard.

**Control Environment**
This session will discuss about strong relationship between risk management and internal control, and provide deep and insightful knowledge about their role, function and scope, including risk reporting, which will eventually help to facilitate compliance with the regulatory requirements on internal controls, as well as providing greater assurance that company’s objectives can be achieved.

**Board Audit and Risk Oversight Committee: Roles and Responsibilities**
The arising challenges of the AEC increase the expectations for effective audit and risk oversight committees to play a vital role in overseeing management’s approach to ERM, including the determination of the enterprise’s risks appetite. This session will discuss about the key success factors in building high performing committees and the associated dynamics to deal with.

*All sessions are delivered in English.*
